Allowable Subject Matter

1) The following is an examiner's statement of reasons for allowance: Upon an extensive review of the prior art that could be located by the examiner and discussions with examiners from AU 2811 and AU 3744, it is the examiner's position that the case is in condition for allowance. Examiner located the closest piece of prior art Balzano (US Patent No. 6,257,329) which pertains to a thermal management system apparatus which is fairly similar to the claimed invention at hand. However upon closer review of the claims and the art at hand, examiner noted significant differences and improvements in this invention over the prior art. That including the use of a diode array, blower means disposed at a selected end of said passageway forcing heat energy in said passageway. These critical differences in the design of the apparatus system as compared to the prior art could not be located in one single reference nor in a reference analogous enough to be combined with Balzano 329. It is therefore the examiner's position that this case is in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to G. Nagesh Rao whose telephone number is (571) 272-2946. The examiner can normally be reached on 9AM-5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta can be reached on (571)272-1316. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
